HOUSEHOLD ENERGY SAVING TIPS

Lighting

Good Energies Alliance Ireland

The most efficient light type is LED, which uses up to 85% less power than traditional bulbs and lasts for 25 years

Save up to
70%
of your lighting costs*

*Lighting costs are usually 9% of the electricity bill in the EU

Try to use as much natural light as possible

Install motion sensors to avoid constant outdoor lighting

Install dimmers and choose the right light intensity for each room
